Art Unit: 3764

1. This application is in condition for allowance except for the following formal matters:

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. Regarding claims 1 and 2 and the title of the application. The title of the device and abstract match the preamble of the claims, the phrase "or the like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "or the like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d).

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants claim of "A vertically adjustable lock for stilts and the like, said lock comprising" and "a quick action lock" seem to be a double inclusion of the claiming of a single lock.

The applicant claims language seems to be inappropriately claiming two lock when in reality there is only one locking mechanism of which to be claimed.

Amendment of the claims and clarification remarks are required to clearly identify component which are in the claim.

Art Unit: 3764

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
6. Note the adjustable mechanisms (130) of Wilhoyte.
7. Note the engageable member 122 and 162 of Yen et al.
8. Note the overall device of Speer and Lin.

Any inquiry concerning this communication should be directed to Jerome Donnelly at telephone number (571) 272-4975.
